Union County – Matt Scarfo gladly announces that Union County moves into Low Risk this week. Matt gives a big thank you to Carrie Brogotti and her crew for working so hard on the COVID situation in our county.
CHD – Aaron Grigg announced that they are seeking Measure 110 funding for resources to address substance abuse relating to the new decriminalizing possession of small amounts of controlled substances. There is a grant opportunity they are considering for addiction treatment centers and also exploring the possibilities of being approved for measure 110 screening, which is required for violators to obtain a waiver of the fine.
